NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS AND SUPPLEMENTARY INFORMATION
FOR THE THREE MONTHS ENDED 31 MARCH 2011**

These interim financial statements were authorised for issue by Citibank, N.A. under power of attorney and by the boards of directors of Citicorp Services Limited and its subsidiaries on this 30th day of May 2011.

b) Basis of preparation

The financial report is presented in New Zealand dollars.

The financial report is prepared on the historical cost basis except that the following assets and liabilities are stated at their fair value: derivative financial instruments, financial instruments at fair value through the income statement, and available for sale securities.

The reporting of gross turnover of these items would not assist in the understanding of these Financial Statements.

Cash and cash equivalents include cash on hand, deposits held overnight or on call with financial institutions, nostro accounts and other short term highly liquid assets which are subject to insignificant risk of change in their fair value and are used by the entity in the management of its short term commitments .

All Citigroup Inc. entities within New Zealand are grouped for tax reporting purposes. This group includes the Branch, the Associated Banking Group and Citigroup Global Markets entities. There were no outstanding tax balances at 31 March 2011 between these entities.

8. CAPITAL MANAGEMENT

Citibank, N.A. New Zealand Branch, as a full branch of Citibank, N.A., has a banking license but is not subject to any minimum capital requirements in New Zealand due to its branch status other than the requirement to comply with Thin Capitalisation Rules. The compliance with the minimum capital adequacy requirements is administered at the US parent entity level.

The major business is conducted in Citibank, N.A. with no significant activity carried out in the banking group. The capital management plan is therefore prepared on a consolidated level covering both branch and banking group.

The objectives of this Capital Management Plan are:

- To ensure that the entity maintains an appropriate level of capital commensurate to its risks and to support new business initiatives and growth;
- To ensure that capital is maintained at a level that meets Thin Capitalisation Rules and to support the case for any capital surplus repatriation back to New York;
- To ensure sufficient liquidity, limits and ratios are in place to support any asset growth.

Financial instruments, both on and off-balance sheet, are entered into by the bank in the normal course of business to provide financial services to customers, to manage its exposure to risk and for trading purposes.

Financial instrument transactions are subject to credit standards, financial controls, and risk-limiting and monitoring procedures. Collateral requirements are determined by evaluating each customer and product, and will include cash and mortgages.

The contract or notional values of these instruments reflect the volume of the bank's activities in these products and do not represent the much smaller amounts potentially subject to risk.

All liabilities are unsecured and were transacted at the prevailing market rates.

The credit equivalent amounts for off balance sheet exposures are determined in accordance with the current exposure method under the Reserve Bank of New Zealand's risk weighted capital adequacy guidelines.
