FOR THE THREE MONTHS ENDED 31 MARCH 2013**

The financial statements are those of the aggregated financial statements for the New Zealand Branch and the Associated Banking Group (the "Banking Group").

The ultimate holding company of the Banking Group is Citigroup Inc, which is a global diversified financial services holding company whose businesses provide a broad range of financial services to consumer and corporate customers.

1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

a) Statement of compliance

The entity's interim financial statements have been prepared in accordance with the requirements of the Registered Bank Disclosure Statements (Overseas Incorporated Registered Banks) Order 2013 and NZ IAS 34 *Interim Financial Reporting*. These financial statements should be read in conjunction with the consolidated financial statements for the year ended 31 December 2012.

These interim financial statements were authorised for issue by Citibank, N.A. under power of attorney and by the boards of directors of Citicorp Services Limited and its subsidiaries on this 29th day of May 2013.

b) Basis of preparation

The financial report is presented in New Zealand dollars.

The financial report is prepared on the historical cost basis except that the following assets and liabilities are stated at their fair value: derivative financial instruments, financial instruments at fair value through the income statement, and available for sale securities.

The amounts in the financial report have been rounded off to the nearest thousand dollars, unless otherwise stated.

Certain comparative information has been reclassified in order to provide a more appropriate basis for comparison.

c) Changes in accounting policy

There have been no material changes in accounting policies since the last annual financial statements dated 31 December 2012.

2. FINANCIAL RISK MANAGEMENT

6. CASHFLOW STATEMENT

The cashflow statement that forms part of the Financial Statements has been prepared on the net cash flows of this entity. The reason for this presentation is that the business of banking produces cash receipts and payments for items in which their turnover is quick, the amounts are large and the maturities are short. The reporting of gross turnover of these items would not assist in the understanding of these Financial Statements.

Cash and cash equivalents include cash on hand, deposits held overnight or on call with financial institutions, nostro accounts and other short term highly liquid assets which are subject to insignificant risk of change in their fair value and are used by the entity in the management of its short term commitments.

8. CAPITAL MANAGEMENT

Citibank, N.A. New Zealand Branch, as a full branch of Citibank, N.A., has a banking license but is not subject to any minimum capital requirements in New Zealand due to its branch status other than the requirement to comply with Thin Capitalisation Rules. The compliance with the minimum capital adequacy requirements is administered at the US parent entity level.

The major business is conducted in Citibank, N.A. with no significant activity carried out in the banking group. The capital management plan is therefore prepared on a consolidated level covering both branch and banking group.

The objectives of this Capital Management Plan are:

- To ensure that the entity maintains an appropriate level of capital commensurate to its risks and to support new business initiatives and growth;
- To ensure that capital is maintained at a level that meets Thin Capitalisation Rules and to support the case for any capital surplus repatriation back to New York;
- To ensure sufficient liquidity, limits and ratios are in place to support any asset growth.

Financial instruments, both on and off-balance sheet, are entered into by the bank in the normal course of business to provide financial services to customers, to manage its exposure to risk and for trading purposes.

Financial instrument transactions are subject to credit standards, financial controls, and risk-limiting and monitoring procedures. Collateral requirements are determined by evaluating each customer and product, and will include cash and mortgages.

The contract or notional values of these instruments reflect the volume of the bank's activities in these products and do not represent the much smaller amounts potentially subject to risk.

All liabilities are unsecured and were transacted at the prevailing market rates.

9. CREDIT EXPOSURES TO INDIVIDUAL COUNTERPARTIES

Based on actual credit exposures, no credit exposure to any individual counterparty of Citibank, N.A. New Zealand Branch and Associated Banking Group equaled or exceeded 10% of Citibank, N.A.'s equity during this accounting period.
