They comply with International Accounting Standard 34 *Interim Financial Reporting*.

These financial statements should be read in conjunction with the consolidated financial statements for the year ended 31 December 2012.

These interim financial statements were authorised for issue by Citibank, N.A. under power of attorney and by the boards of directors of Citicorp Services Limited and its subsidiaries on this 29th day of August 2013.

b) Basis of preparation

The financial report is presented in New Zealand dollars.

The financial report is prepared on the historical cost basis except that the following assets and liabilities are stated at their fair value: derivative financial instruments, financial instruments at fair value through the income statement, and available for sale securities.

The amounts in the financial report have been rounded off to the nearest thousand dollars, unless otherwise stated.

c) Adoption of new and revised accounting standards

From 01 January 2013 the Banking Group has applied NZ IFRS 13: Fair Value Measurement. The change in accounting policy only relates to disclosures and has no impact on net income.

6. CASHFLOW STATEMENT

The cashflow statement that forms part of the Financial Statements has been prepared on the net cash flows of this entity. The reason for this presentation is that the business of banking produces cash receipts and payments for items in which their turnover is quick, the amounts are large and the maturities are short. The reporting of gross turnover of these items would not assist in the understanding of these Financial Statements.

Cash and cash equivalents include cash on hand, deposits held overnight or on call with financial institutions, nostro accounts and other short term highly liquid assets which are subject to insignificant risk of change in their fair value and are used by the entity in the management of its short term commitments.

8. CAPITAL MANAGEMENT

Citibank, N.A. New Zealand Branch, as a full branch of Citibank, N.A., has a banking license but is not subject to any minimum capital requirements in New Zealand due to its branch status other than the requirement to comply with Thin Capitalisation Rules. The compliance with the minimum capital adequacy requirements is administered at the US parent entity level.

The major business is conducted in Citibank, N.A. with no significant activity carried out in the banking group. The capital management plan is therefore prepared on a consolidated level covering both branch and banking group.

The objectives of this Capital Management Plan are:

- To ensure that the entity maintains an appropriate level of capital commensurate to its risks and to support new business initiatives and growth;
- To ensure that capital is maintained at a level that meets Thin Capitalisation Rules and to support the case for any capital surplus repatriation back to New York;
- To ensure sufficient liquidity, limits and ratios are in place to support any asset growth.

Financial instruments, both on and off-balance sheet, are entered into by the bank in the normal course of business to provide financial services to customers, to manage its exposure to risk and for trading purposes.

Financial instrument transactions are subject to credit standards, financial controls, and risk-limiting and monitoring procedures. Collateral requirements are determined by evaluating each customer and product, and will include cash and mortgages.

The contract or notional values of these instruments reflect the volume of the bank's activities in these products and do not represent the much smaller amounts potentially subject to risk.

All liabilities are unsecured and were transacted at the prevailing market rates.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS AND SUPPLEMENTARY INFORMATION
FOR THE SIX MONTHS ENDED 30 JUNE 2013

Liquidity risk is managed on the basis of expected maturity dates for certain products (see below). The main assumption made is that the balance sheet does not mature and is based on a business-as-usual view of the Banking Group's funding requirements.

All related party assets and liabilities are managed on a contractual maturity basis.

It is assumed that third party assets will roll over as management is not expecting any reduction in the balance sheet and are therefore shown in the > 2 years category. The only exception is cash with central banks which is treated as contractual.

Third party liabilities are split in to two main categories -

a) Long-term debt which is managed on a contractual maturity basis

b) Corporate and other deposits. Non-volatile balances are reported in the >2 years and volatile balances in the overnight bucket. The methodology for calculating the volatile and non-volatile balances is based on an analysis of 2.36 standard deviations of the previous twelve months balances and the resulting percentages are applied to the balance sheet.

The expected maturity periods of financial instruments are based on the carrying value of the balance sheet.

The expected maturity periods of financial instruments are as follows:

Basis of opinion

We have performed our review in accordance with the review engagement standard RS-1 Statement of Review Engagement Standards issued by the External Reporting Board. A review is limited primarily to enquiries of Banking Group personnel and analytical review procedures applied to the financial data, and thus provides less assurance than an audit. We have not performed an audit and, accordingly, we do not express an audit opinion.

Our firm has also provided other services to the Banking Group in relation to taxation and general accounting services. Partners and employees of our firm may also deal with the Banking Group on normal terms within the ordinary course of trading activities of the business of the Banking Group. There are, however, certain restrictions on dealings which the partners and employees of our firm can have with the Banking Group. These matters have not impaired our independence as auditor of the Banking Group. The firm has no other relationship with, or interest in, the Banking Group.

Review opinion

We have examined the condensed interim financial statements including the supplementary information and based on our review, nothing has come to our attention that causes us to believe that:

- The condensed interim financial statements on pages 3 to 15 (excluding the supplementary information) have not been prepared, in all material respects, in accordance with NZ IAS 34, *Interim Financial Reporting*;
- The supplementary information that is required to be disclosed under Schedules 5, 7, 10, 12 and 14 of the Order does not fairly state, in all material respects, the matters to which it relates in accordance with those schedules; and
- The supplementary information relating to credit and market risk exposures and capital adequacy that is required to be disclosed under Schedule 9 of the Order is not, in all material respects, prepared in accordance with Capital Adequacy Framework (Basel I Approach) (BS2) and Capital Adequacy Framework (Standardised Approach) (BS2A) and disclosed in accordance with Schedule 9 of the Order.

Our review was completed on 29 August 2013 and our opinion is expressed as at that date.
