Part II. Loans to Small Businesses and Small Farms

Report the number and amount currently outstanding as of the report date of business loans with "original amounts" of \$1,000,000 or less and farm loans with "original amounts" of \$500,000 or less. The following guidelines should be used to determine the "original amount" of a loan:

- (1) For loans drawn down under lines of credit or loan commitments, the "original amount" of the loan is the size of the line of credit or loan commitment when the line of credit or loan commitment was most recently approved, extended, or renewed prior to the report date. However, if the amount currently outstanding as of the report date exceeds this size, the "original amount" is the amount currently outstanding on the report date.
- (2) For loan participations and syndications, the "original amount" of the loan participation or syndication is the entire amount of the credit originated by the lead lender.
- (3) For all other loans, the "original amount" is the total amount of the loan at origination or the amount currently outstanding as of the report date, whichever is larger.

¹ For all items, banks have the option of reporting either (1) an average of DAILY figures for the quarter, or (2) an average of WEEKLY figures (i.e., the Wednesday of each week of the quarter).

² Quarterly averages for all debt securities should be based on amortized cost.

³ For institutions that have adopted ASU 2016-01, which includes provisions governing the accounting for investments in equity securities, quarterly averages for equity securities with readily determinable fair values should be based on fair value. For institutions that have not adopted ASU 2016-01, quarterly averages for equity securities with readily determinable fair values should be based on historical cost.

⁴ The quarterly average for total assets should reflect securities not held for trading as follows:

a) Debt securities at amortized cost.

b) For institutions that have adopted ASU 2016-01, equity securities with readily determinable fair values at fair value. For institutions that have not adopted ASU 2016-01, equity securities with readily determinable fair values at the lower of cost or fair value.

c) For institutions that have adopted ASU 2016-01, equity investments without readily determinable fair values, their balance sheet carrying values (i.e., fair value or, if elected, cost minus impairment, if any, plus or minus changes resulting from observable price changes). For institutions that have not adopted ASU 2016-01, equity investments without readily determinable fair values at historical cost.
