

Third Quarter 2010 Earnings Review

October 18, 2010

Highlights

- ▶ **Progress executing our strategy**
 - Citigroup: 3rd consecutive quarter of positive operating profits - \$2.2B earnings in 3Q'10, \$9.3B in the first nine months of 2010
 - Citicorp: \$3.5B earnings in 3Q'10, \$12.5B in first nine months of 2010
 - Continue to invest in the franchise and attract talent to the firm
 - Citi Holdings: Assets of \$421B; down \$44B from 2Q'10 and 49% lower than 1Q'08 peak. Expect to be below \$400B by year-end, or less than 20% of Citigroup's assets

- ▶ **Strong balance sheet**
 - Tier 1 Common ratio of 10.3%, up 60bps sequentially

- ▶ **Expect to be in a position to begin returning capital to shareholders in 2012**
 - 2011 will be a year of rule-making in the US and model calibration across the industry
 - Targeting to operate in a Tier 1 Common ratio range of 8%-9% under Basel III, expect to be above those levels by 2012

Note: Comments on capital and Basel III are based on Citi's current understanding of Basel III requirements, and are subject to final regulatory clarity and rulemaking, model calibration and other final implementation guidance.

▶ **Revenues**

- QoQ up driven primarily by higher gains on mortgage sales resulting from increased originations
- Cards: CARD Act impact offset by improving credit quality

▶ **Expenses**

- Higher marketing spend offset by a benefit related to the renegotiation of a third party contract during 3Q'10

▶ **Credit costs**

- NCLs declined 7% QoQ to \$2.0B, as cards performance continued to improve
- No LLR release
- Early and later-stage cards delinquencies continued to improve, both QoQ and YoY

Conclusions

- ▶ **Citigroup: Net income of \$2.2B**
- ▶ **Revenues: Solid international results, RCB and GTS up sequentially**
 - Good growth in our international revenue drivers
- ▶ **Expenses: Investments in Citicorp, decline in Holdings**
 - Expect to remain in the range of \$11.5-\$12B per quarter
- ▶ **Credit costs declined for the fifth consecutive quarter**
 - International net credit losses are flattening
 - Expect US to keep improving as long as the economic recovery is sustained
- ▶ **Continue to de-risk: Holdings at 21% of total Citi assets**
- ▶ **Strong capital and liquidity**
- ▶ **Citi expects to be well above the Basel III requirements without issuing additional equity**

Note: Comments on capital and Basel III are based on Citi's current understanding of Basel III requirements, and are subject to final regulatory clarity and rulemaking, model calibration and other final implementation guidance.

Basel I to Basel III

- ▶ **In addition to Basel II, two new set of rules emerged post financial crisis:**
 - **Basel 2.5: July 2009/June 2010 rules for market risk**
 - **Needs to be reconciled with Dodd-Frank over the use of external risk ratings**
 - **Basel III (December 2009/July and September 2010 rules)**
 - **Predominance of common equity in capital base; adds liquidity risk measures**
- ▶ **A high degree of uncertainty persists around implementation details, as guidelines are yet to be finalized and then converted into rules by local regulators**
- ▶ **Moving from Basel I to III will result in an increase to RWA – but guidelines are not yet final and local implementation is still to be crafted**
 - **RWA calculations become more risk sensitive**
 - **Requires greater use of models which need to be validated and calibrated across institutions - in theory on a global basis**
- ▶ **Citi expects to partly offset the increase in RWA through mitigation actions, such as the continued reduction of Citi Holdings assets, optimization of trading inventories or hedging of counterparty risk, among others**
- ▶ **Citi expects to be well above Basel III capital requirements without issuing additional equity**

Note: Comments on capital and Basel III on slides 35-37 are based on Citi's current understanding of Basel III requirements, and are subject to final regulatory clarity and rulemaking, model calibration and other final implementation guidance.

(1) All dates as of January 1st of each year.

(2) Consists of common equity or other fully loss absorbing capital, to be implemented on a discretionary basis by local regulators when deemed that excess credit growth is resulting in a system-wide build-up of risk.

(3) Includes amounts in excess of the individual 10% and aggregate 15% limits for DTAs arising from timing differences, MSRs, and >10% common stock investments in unconsolidated financial institutions (please refer to slide 37).

(4) Capital instruments that no longer qualify as non-common Tier 1 Capital or Tier 2 Capital will be phased out over a 10 year period beginning January 1, 2013.

Basel III – Deductions from Tier 1 Common

- ▶ **Deductions from Tier 1 Common will be phased-in over time, and are expected to be in full effect by January 1st, 2018⁽¹⁾**
 - **Current proposal allows DTAs arising from timing differences⁽²⁾, mortgage servicing rights, and common stock investments in unconsolidated financial institutions⁽³⁾ up to 10% of adjusted Tier 1 Common each, and then the aggregate of these amounts allowed up to 15%**

- ▶ **Deferred Tax Assets: \$50.8B, but only \$13.7B currently included in Tier 1 Common, at the end of 3Q'10**

- ▶ **Mortgage Servicing Rights: \$4B at the end of 3Q'10**

- ▶ **> 10% investments in unconsolidated financial Institutions common stock ~\$20B at the end of 3Q'10**
 - **Citi's current 49% stake in the MSSB joint venture represents over 50% of that amount**

(1) Starting January 1st 2014, the deductions will be phased-in by increments of 20% annually.

(2) For purposes of applying the individual 10% and aggregate 15% limits, Tier 1 Common excludes DTAs arising from net operating loss and foreign tax credit carry-forwards.

(3) Only stakes that represent over 10% of the financial institution's common stock count towards the calculation of limits.
