**Schedule HC-R—Continued**

Bank holding companies are not required to risk-weight each on-balance sheet asset and the credit equivalent amount of each off-balance sheet item that qualifies for a risk weight of less than 100 percent (50 percent for derivatives) at its lower risk weight. When completing items 34 through 54 of Schedule HC-R, each bank holding company should decide for itself how detailed a risk-weighted analysis it wishes to perform. In other words, a bank holding company can choose from among its assets and off-balance sheet items that have a risk weight of less than 100 percent which ones to risk-weight at an appropriate lower risk weight, or it can simply risk-weight some or all of these items at a 100 percent risk weight (50 percent for derivatives).
