

Basel III Pillar 3 Capital Disclosure

Effective January 1, 2013 OSFI requires Canadian financial institutions to manage and report regulatory capital in accordance with a new capital management framework, commonly referred to as Basel III. The new Basel III Pillar 3 public capital disclosure requirements are intended to improve both the transparency and comparability of the Bank's capital position. The following table is in conformity with the template provided by OSFI in its Basel III Pillar 3 Advisory issued April 2014 for non-DSIBs.
