

CCCIT: Delinquencies

Notes:

- Delinquencies include both principal and finance charge receivables. The monthly delinquencies 30+ days and 90+ days percentages were calculated by dividing total receivables 31 days or more past due or 91 days or more past due, respectively, by the principal and finance charge receivables as of the last full weekend of the month.
- This series reflects monthly data.
- Data is current through the August 2026 due period.
